SUBJECT INDEX

Reviews are indicated by (R)

Activation of small ruminant aortic endothelial cells after in vitro infection by caprine arthritis encephalitis virus 225
Aflatoxicosis, Ameliorative effects of sodium bentonite on phagocytosis and Newcastle disease antibody formation in broiler chickens during 119
Aflatoxicosis, Effect of clinoptilolite on serum biochemical and haematological characters of broiler chickens during 89
Alterations in the organisation, ultrastructure and biochemistry of the myocardial collagen matrix in Doberman pinschers with dilated cardiomyopathy 267
Ameliorative effects of sodium bentonite on phagocytosis and Newcastle disease antibody formation in broiler chickens during aflatoxicosis 119
Anthracycline activity in canine mammary tumour cells in vitro by medroxyprogesterone acetate, Modulation of 255
Atropine on MgSO4-induced gallbladder emptying in conscious dogs, Effects of lorglumide and 129
Avian reovirus by using protein s B as the coating antigen, An enzyme-linked immunosorbent assayfor the detection of antibody to 107

Behaviour in singly housed rats, Effects of surgery and analgesic administration on spontaneous 283
Bone quality and turnover, and Ca and P metabolism in chickens, Dietary effects on 81
Brain cells in primary culture, Isolation and characterisation of fetal bovine 39
Brucella abortus strain RB51, Responses of adult cattle to vaccination with a reduced dose of 135
Bustards, Radiographic analysis of the growth rate of long bones in 233

Caffeine in camels, The pharmacokinetics, metabolism and urinary detection time of 69
Caffeine pharmacokinetics in cattle, The effect of sex and age on 33
Canine leishmaniasis transmission: higher infectivity amongst naturally infected dogs to sand flies is associated with lower proportions of T helper cells 209
Caprine arthritis encephalitis virus, Activation of small ruminant aortic endothelial cells after in vitro infection by 225
Carboxyfluorescein succinimidyl ester (CFSE) loading and flow cytometric analysis, Evaluation of cell replication by bovine T cells in polyclonally activated cultures using 275
Cefuroxime sodium in goats, Pharmacokinetis and intramuscular bioavailability of 219
Characterisation of sugar residues in glycoconjugates of pig mandibular gland by traditional and lectin histochemistry 159
Chronic aflatoxin (50 and 100 ppb) exposure, Preventive efficacy of clinoptilolite in broilers during 197
Clinoptilolite in broilers during chronic aflatoxin (50 and 100 ppb) exposure, Preventive efficacy of 197
Clinoptilolite on serum biochemical and haematological characters of broiler chickens during aflatoxicosis, Effect of 89
Clostridia in gas gangrene by polymerase chain reaction based on the 16S-23S rDNA spacer region,
Rapid identification and differentiation of pathogenic 289
Collagen in the dog, Urinary markers of type I 123
Collagen matrix in Doberman pinschers with dilated cardiomyopathy, Alterations in the organisation, ultrastructure and biochemistry of the myocardial 267
Comparative medicine and clinical research, Only one medicine: the future of (R) 101
Correlation between plasma anti-factor Xa activity and haemostatic tests in healthy dogs, following the adminstration of a low molecular weight heparin, The241

Detection of IL-2 and IFN-g mRNA expression in bovine milk cells at the late stage of the lactation period with RT-PCR 185
Dexamethasone-treated pigs: effects on stress neuropeptides in the hypothalamus and hippocampus and glutamate receptor subunits in the hippocampus, Gene expression in the forebrain of 25
Dietary effects on bone quality and turnover, and Ca and P metabolism in chickens 81
Differences in the concentration of various synovial fluid constituents between the distal interphalangealjoint, the metacarpophalangeal joint and the navicular bursa in normal horses 63
Difficulties in experimental infection studies with *Flavibacterium psychrophilum* in rainbow trout (*Oncorhynchus mykiss*) using immersion, oral and anal challenges 165
Dilated cardiomyopathy, Alterations in the organisation, ultrastructure and biochemistry of the myocardial collagen matrix in Doberman pinschers with 267
Doberman pinschers with dilated cardiomyopathy, Alterations in the organisation, ultrastructure and biochemistry of the myocardial collagen matrix in 267

Effect of clinoptilolite on serum biochemical and haematological characters of broiler chickens during aflatoxicosis 89
Effect of current frequency during electrical stunning in a water bath on somatosensory evoked responses in turkey's brain 53
Effect of sex and age on caffeine pharmacokinetics in cattle, The 33
Effects of lorglumide and atropine on MgSO4-induced gallbladder emptying in conscious dogs 129
Effects of surgery and analgesic administration on spontaneous behaviour in singly housed rats 283
Electroencephalographic olfctometry (EEGO) analysis of odour responses in dogs 263
Enzyme-linked immunosorbent assay for the detection of antibody to avian reovirus by using protein s B as the coating antigen, An 107
Evaluation of cell replication by bovine T cells in polyclonally activated cultures using
carboxyfluorescein succinimidyl ester (CFSE) loading and flow cyto metric analysis 275
Evaluation of the gamma interferon test for detecting bovine tuberculosis in cattle 8 to 28 days after tuberculin skin testing, An 57

Flavibacterium psychrophilum in rainbow trout (*Oncorhynchus mykiss*) using immersion, oral and anal challenges, Difficulties in experimental infection studies with 165
Foot and mouth disease, The importance of immediate destruction in epidemics of 189
Gallbladder emptying in conscious dogs, Effects of lorglumide and atropine on MgSO4-induced 129
Gas gangrene by polymerase chain reaction based on the 16S-23S rDNA spacer region, Rapid identification and differentiation of pathogenic clostridia in 289
Gene expression in the forebrain of dexamethasone-treated pigs: effects on stress neuropeptides in the hypothalamus and hippocampus and glutamate receptor subunits in the hippocampus 25
Genomic polymorphism in Uruguayan Creole cattle using RAPD and microsatellite markers 171

Haematological profile of crossbred dairy cattle to monitor herd health status at medium elevation in Central Himalayas 141

Heparin, The correlation between plasma anti-factor Xa activity and haemostatic tests in healthy dogs, following the adminstration of a low molecular weight 241
Histopathological characterisitics of five clinical types of equine sarcoid 295

Importance of immediate destruction in epidemics of foot and mouth disease, The 189
Isolation and characterisation of fetal bovine brain cells in primary culture 39

Ketamine after canine oviarohysterectomy – a comparison between pre- or post-operative administration, The post-operative analgesic effects of 147

Lactoferrin concentration and the correlation with some blood components in lactating sows, Serum and milk 95
Lameness in three herds, The relationships between social behaviour of dairy herds and the occurrence of 75
Lectin histochemistry, Characterisation of sugar residues in glycoconjugates of pig mandibular gland by traditional and 159
Lectin reactive sites in adult and prepubertal horse testes, Localisation of the 113
Leishmaniasis transmission: higher infectivity amongst naturally infected dogs to sand flies is associated with lower proportions of T helper cells, Canine 209
Listeria monocytogenes by pulsed-field gel electrophoresis, Rapid molecular typing of 99
Localisation of the lectin reactive sites in adult and prepubertal horse testes 113
Lorglumide and atropine on MgSO4-induced gallbladder emptying in conscious dogs, Effects of 129

Mandibular gland by traditional and lectin histochemistry, Characterisation of sugar residues in glycoconjugates of pig 159
Marek's disease: an update on oncogenic mechanisms and control (R) 17
Medroxyprogesterone acetate, Modulation of anthracycline activity in canine mammary tumour cells in vitro by 255
Milk cells at the late stage of the lactation period with RT-PCR, Detection of IL-2 and IFN-γ mRNA expression in bovine 185
Modulation of anthracycline activity in canine mammary tumour cells in vitro by medroxyprogesterone acetate 255

Navicular bursa, in normal horses, Differences in the concentration of various synovial fluid constituents between the distal interphalangealjoint, the metacarpophalangeal joint and the 63
Newcastle disease antibody formation in broiler chickens during aflatoxicosis, Ameliorative effects of sodium bentonite on phagocytosis and 119

Only one medicine: the future of comparative medicine and clinical research (R) 101
Oviarohysterectomy – a comparison between pre- or post-operative administration, The post-operative analgesic effects of ketamine after canine 147

Phagocytosis and Newcastle disease antibody formation in broiler chickens during aflatoxicosis,
Ameliorative effects of sodium bentonite on 119
Pharmacokinetics, metabolism and urinary detection time of caffeine in camels, The 69
Pharmacokinetis and intramuscular bioavailability of cefuroxime sodium in goats 219
Pilot study of protein sparing in healthy dogs using peripheral parenteral nutrition, A 47
Polymorphism in Uruguayan Creole cattle using RAPD and microsatellite markers, Genomic 171
Post-operative analgesic effects of ketamine after canine oviarohysterectomy – a comparison between pre- or post-operative administration, The 147
Preventive efficacy of clinoptilolite in broilers during chronic aflatoxin (50 and 100 ppb) exposure 197
Protein sparing in healthy dogs using peripheral parenteral nutrition, A pilot study of 47

Radiographic analysis of the growth rate of long bones in bustards 233
Rainbow trout (*Oncorhynchus mykiss*) using immersion, oral and anal challenges,Difficulties in experimental infection studies with *Flavibacterium psychrophilum* in 165
Rapid changes occur in the percentage of circulating bovine WC1+γδ Th 1 cells 175
Rapid identification and differentiation of pathogenic clostridia in gas gangrene by polymerase chain reaction based on the 16S-23S rDNA spacer regio · 289
Rapid molecular ty[illegible]g of *Listeria monocytogenes* by pulsed-field gel electrophoresis 99
Regional brain monoamine concentrations and their alterations in bovine hypomagnesaemic tetany experimentally induced by a magnesium-deficient diet 301
Relationships between social behaviour of dairy herds and the occurrence of lameness in three herds, The 75
Responses of adult cattle to vaccination with a reduced dose of Brucella abortus strain RB51 135

σB as the coating antigen, An enzyme-linked immunosorbent assay for the detection of antibody to avian reovirus by using protein 107
Salmonella infection in calves, Serum haptoglobin: an objective indicator of experimentally-induced 153
Sarcoid, Histopathological characterisitics of five clinical types of equine 295
Serum and milk lactoferrin concentration and the correlation with some blood components in lactating sows 95
Serum haptoglobin: an objective indicator of experimentally-induced *Salmonella* infection in calves 153
Sheep blowfly strike: a model approach (R) 1
Social behaviour of dairy herds and the occurrence of lameness in three herds, The relationships between 75
Sodium bentonite on phagocytosis and Newcastle disease antibody formation in broiler chickens during aflatoxicosis, Ameliorative effects of 119
Staphylococcus aureus, Systemic and local immune response of cows to intramammary infection with 181
Stunning in a water bath on somatosensory evoked responses in turkey's brain, Effect of current frequency during electrical 53
Sugar residues in glycoconjugates of pig mandibular gland by traditional and lectin histochemistry,
Characterisation of 159
Systemic and local immune response of cows to intramammary infection with *Staphylococcus aureus* 181

Tuberculosis in badgers: a review of the disease and its significance for other animals (R) 203
Tuberculosis in cattle 8 to 28 days after tuberculin skin testing, An evaluation of the gamma interferon test for detecting bovine 57

Urinary markers of type I collagen in the dog 123

Veterinary advances in the investigation of wildlife diseases in Britain (R) 11

WC1+γδ Th 1 cells, Rapid changes occur in the percentage of circulating bovine 175
Wildlife diseases in Britain, Veterinary advances in the investigation of (R) 11
